Notes

When applied Rated current to the Products, Inductance will be within ±30% of initial inductance value range.
Keep the temperature(ambient temperature plus self-generation of heat) under 125°C.
When applied rated current to the products, temperature rise caused by self-generated heat shall be limited to 40°C (at the rated current under 85°C) 20°C (at the rated current under 105°C)
